CALENDAR OF EVENTS

Cattle Economy!!

February

5-16 Florida State Fair, Tampa, FL

March

10 Forest Stewardship Workshop/Field Day, 8:30AM – 4:00PM, UF-IFAS Gulf Coast Research and Education Center, Balm, FL

11 Intervet/Schering-Plough Animal Health, Parasite Diagnostics, 8:00AM – 5:00PM, DeSoto County Extension Office Work Room

April

4 Performance Horse Short Course, 8:30AM – 3:30PM, Okeechobee Agri-Civic Center

14 Southeast Beef Cattle Marketing School, 8:30AM – 5:00PM, Turner Center Exhibit Hall

16 UF/IFAS Ona Range Cattle Station Field Day, Ona, FL

23 DeSoto County Cattlemen’s Association Annual Spring Meeting, 7:00PM, Turner Center Exhibit Hall, Arcadia, FL

29- May 1 58th Annual Florida Beef Cattle Short Course, Hilton University of Florida Conference Center, Gainesville, FL

WILL A DAIRY BUYOUT HAPPEN?

Beef producers were concerned last week when news items suggested Congress was considering a 300,000-head dairy buyout as part of the economic stimulus package. The industry might have overreacted though, as the House version of the stimulus package did not contain any provisions for a dairy buyout. According to a California newspaper, a drop in milk prices to \$9 per hundredweight is prompting dairy organizations, including California-based Western United Dairymen, to continue to push for a dairy termination program that will take approximately 300,000 cows out of production. According to the report, Cooperatives Working Together, a national coalition of regional co-ops that represents 62 percent of U.S. milk production, is supposed to be discussing the plan in more detail this week. To get to the bottom of the issue, AgriTalk radio host Mike Adams yesterday interviewed Michael Marsh, CEO of Western United Dairymen, and Colin Woodall, Executive Director of Legislative Affairs for NCBA. Marsh says that while there is a need for assistance for the dairy industry, there was no push for stimulus money for a buyout. He said the only mention of the buyout was in a National Cattlemen’s Beef Association press release opposing the idea. But NCBA’s Woodall says dairy interests were indeed shopping the buyout package around Capitol Hill, and NCBA pushed back to protect beef prices. **Source—Drovers Alert, February 5, 2008—Volume 10, Issue 5.**

CATTLE FAX ECONOMIC OUTLOOK REPORTED AT CATTLEMEN'S INSTITUTE

A couple of weeks ago at the Florida Cattlemen's Institute and Allied Trade Show, Cattle Fax made a presentation on the Beef Cattle Economic Outlook. The talk was full of charts and slides that depict trends of the industry and related areas. Below I have inserted several of those for your consideration in this newsletter.

The Institute of Food and Agricultural Sciences (IFAS) is an Equal Opportunity Institution authorized to provide research, educational information and other services only to individuals and institutions that function with non-discrimination with respect to race, creed, color, religion, age, disability, sex, sexual orientation, marital status, national origin, political opinions or affiliations. U.S. Department of Agriculture, Cooperative Extension Service, University of Florida, IFAS, Florida A. & M. University Cooperative Extension Program, and Boards of County Commissioners Cooperating.

Beef Management Calendar

February/March

Check mineral feeder.	Check for external parasites and treat if needed.
Work Calves (castrate, deworm, vaccinate, implant).	Watch calves for signs of respiratory diseases.
Cull cows that failed to calve & market in April.	Check for lice and treat.
Pull soil samples to be run at UF Soils Lab.	Fertilize ryegrass if necessary.

AG PROGRAMS INCLUDED IN STIMULUS PACKAGE

U.S. economic issues are garnering all the attention in Washington, D.C. The House Democrats passed a stimulus package last week, and the Senate is considering it this week. In the House version, agriculture programs, including nutrition assistance, rural development and conservation, would receive about \$27 billion, or about 3.3 percent, of the House-approved \$825 billion economic stimulus package. That's according to an estimate from the Congressional Budget Office. Republicans are criticizing the House stimulus bill because they argue it funds too many dubious programs and projects. Senate Republicans appear to be headed down that same path. President Obama wants a final bill on his desk by mid-month. Among the agricultural programs in the package, nutrition-assistance programs account for \$21 billion. Rural development programs would receive \$5.1 billion, including \$2.8 billion to deploy broadband technology in rural areas and \$1.5 billion for rural water and waste disposal projects. USDA's infrastructure would benefit from facilities maintenance and computer improvements totaling nearly \$500 million. Conservation and watershed programs would receive \$400 million. **Source—Drovers Alert, February 5, 2008—Volume 10, Issue 5.**

58th ANNUAL FLORIDA BEEF CATTLE SHORT COURSE—Enclosed Brochure

The 58th Annual Florida Beef Cattle Short Course will be held again this year at the Hilton University of Florida Conference Center, Gainesville, FL on April 29th, 30th and May 1, 2009. You will find a brochure enclosed in the envelope with this newsletter. I hope to see you there. **Jim Selph**

INTERVET SCHERING-PLOUGH PARASITOLOGIST SAMPLE DIAGNOSIS

On March 11, 2009, a parasitologist, courtesy of Intervet/Schering-Plough Animal Health, will be set up all day at our office to do parasite diagnostics of fecal samples from your herd. Dr. Don Bliss owns Mid-America Ag Research Company based out of Verona, Wisconsin and he has many published articles on parasites. Samples should be taken as fresh as possible, should contain about a golf-ball amount of fecal material and should be enclosed in a zip lock sandwich plastic bag (squeeze out air). Put the individual samples (4-6) into a larger resealable bag and identify by date and herd. Refrigerate to ensure each sample is sufficiently cooled if taking prior to the 11th. The sample should be a rectal or an observed freshly dropped sample. Unless the demand is over whelming, results should be available that day.

UF/IFAS ONA RANGE CATTLE STATION CATTLE AND FORAGE FIELD DAY

Mark your calendar for April 16, 2009 and plan to attend the UF/IFAS Ona Range Cattle Station Cattle and Forage Field Day. See page 7 of this newsletter for detailed information.

BLOOD TEST FOR CWD DEVELOPED

Researchers in Canada have developed a blood test that can diagnose chronic wasting disease (CWD) in elk and believe it may eventually provide a cheap way to screen cattle for BSE. The test looks for signs of damaged cells in the blood, the researchers reported in the journal *Nucleic Acids Research*. "We can now take a blood sample from a live animal and look at the DNA patterns in the blood and predict six months ahead of time whether an animal is infected with chronic wasting disease," Christoph Sensen of the University of Calgary told *Reuters*. Rather than looking for prions, they studied circulating nucleic acids – little bits of DNA that get spat out when distressed cells die. Sensen said it will take four years to replicate the findings in cattle.

James F. Selph
DeSoto County Extension Director, IV, Livestock & Forages

"No occupation is so delightful to me as the culture of the earth, and no culture comparable to that of the garden". Thomas Jefferson

**University of Florida/IFAS
Forest Stewardship Workshop / Field Day:
Manage for Multiple Objectives: Techniques and Demonstrations
UF-IFAS Gulf Coast Research and Education Center at Balm**

Agenda:

- 8:30 am** Sign-in, meet & greet
- 8:45** Program Introduction – Start with Your Plan, Chris Demers, UF-IFAS School of Forest Resources and Conservation
Classroom Overview of Forest Management Objectives and Practices
- 9:00** Forest Management Objectives, Dr. Michael Andreu, Assistant Professor, UF-IFAS Gulf Coast REC
- 9:40** Growing Timber: Planting and Vegetation Management, Florida Division of Forestry?
- 10:15** Break
- 10:30** Field Demonstrations of Forest Management Equipment / Practices, Jose Moreno, Farm Manager, Gulf Coast REC; Dr. Michael Andreu, Assistant Professor, Gulf Coast REC; Dan Darby, Sales Representative, Marden Industries; others TBA
- Vegetation management
 - Roller chopping
 - Herbicide: 4-wheeler, backpack
 - Scalp and Plant – machine and hand
- 12:00 pm** Lunch – Thanks Sponsors!
- Classroom Overview of Wildlife Management Objectives and Practices
- 1:00** Manage Native Vegetation for Game and Nongame Species, Dr. Bill Giuliano, Professor, & Extension Specialist, Wildlife Ecology and Conservation Department, UF/IFAS, Gainesville, FL
- 1:30** Supplemental Feeding, Food Plots, Jim Selph, UF-IFAS DeSoto Cooperative Extension Service, Arcadia, FL
- 2:00** Break
- 2:15** Field Demonstrations of Wildlife Management Equipment / Practices, Jose Moreno, Jim Selph, Dr. Bill Giuliano, Dr. Michael Andreu, & Dan Darby
- Discing - available
 - Mowing / brush cutting – browns tree cutter
 - Food plot establishment – use ryegrass demo already in progress
- 3:30** Return to Classroom for Closing Remarks, Questions and Evaluation
- 4:00** Adjourn

**Program is free, lunch provided, REGISTER NOW:
Contact Christine Cooley at (813) 634-0000 to register.**

Saturday, April 4, 2009

“Performance Horse Short Course”
Featuring: **Bob Myler, World Renowned Bit Maker**

University of Florida/IFAS
The South Florida Beef/Forage Program
Okeechobee Agri-Civic Center
4601 Highway 710 E
Okeechobee, FL

Functionality is key to your success and profitability. The following presentations provide insight to a more successful horse and rider team.

Thursday, April 16, 2009

**University of Florida/IFAS
Range Cattle Research & Education Center
Cattle and Forage Field Day**

**~ Special Event ~
Dedication of New Buildings
Ribbon Cutting Ceremony With Florida Cattlemen's Foundation**

~ Directions from Arcadia ~

From SR 70 in Arcadia travel west about 1.5 miles to CR 661. Take a right on CR 661 and travel about 12 miles to Goose Pond Road. Take a left on Goose Pond Road and travel 1.5 miles. Turn left onto Experiment Station Road. Travel about a mile to reach the Range Cattle REC offices and facilities.

- 9:00 AM Sign in
- 9:30 AM Welcome and Introductions -
Dr. John Arthington, Director
- 9:45 AM Opening Remarks
Dr. Larry Arrington
UF-IFAS Senior Vice President
- 10:00 AM Ribbon Cutting Ceremony
Jim Handley
Executive Vice President
Florida Cattlemen's Association
and
Dr. John Arthington, Director

Faculty Presentations

- 10:30 AM Forage Nutritive Value: What is the value of purchased hay?
Joe Vendramini, Assistant Professor
- 11:00 AM Combating Hard to Control Weeds
Brent Sellers, Assistant Professor
- 11:30 AM Pasture Fertilization Decisions
Maria Silveira, Assistant Professor
- 12:00 PM Steak Lunch

Afternoon Field Tours

- A) Tour new facilities
- B) Forage research plots
- C) Weed and forage garden

D) Pasture fertilization research plots
There is no charge for the day's program or lunch, however we must have your completed registration form by April 8th to ensure adequate literature and lunch arrangements are made. Thank you.

Southeast Beef Cattle Marketing School

University of Florida/IFAS
DeSoto County Extension
The South Florida Beef Forage Program

Schedule of Events:

8:30 AM	Registration	
9:00	Welcome and overview	Jim Selph, DeSoto County Extension Agent
9:15	Cattle market outlook for 2009	Walt Prevatt, Auburn Livestock Economist
10:15	Developing a marketing plan	Todd Davis, Clemson Agricultural Economist
10:45	Break	
11:00	Seasonality of cattle prices	Curt Lacy, Georgia Agricultural Economist
11:30	Using futures to predict cash prices	Walt Prevatt, Auburn Livestock Economist
12:15PM	Lunch	Sponsored
1:00	Price factors, USDA grades and market news reports	Terry Harris, USDA Market News Service
2:00	Break	
2:15	Adding value to the cattle you sell	Jim Selph, DeSoto County Extension Agent
2:45	Marketing opportunities at your local livestock market	Carl McKettrick, Manager, Arcadia Stockyards
3:15	Program evaluation	Jim Selph, DeSoto County Extension Agent
3:30	Adjourn	

Helping cattlemen better understand the cattle market, to add value to the cattle they sell at their local Livestock Market.

What you will learn:

- Market outlook for 2009 and beyond.
- The best and worst best times of the year to sell.
- Techniques to estimate cattle prices in advance.
- Factors that affect prices for individual calves and cows.
- Things to consider to avoid price discounts.
- Methods to increase total value of cattle sold.
- Marketing opportunities available through your local market.

Please return the registration form or call 863-993-4846 to make your reservations for this program.
