## ***PROGRAMS -***

### **The Extension Service has many new programs to be presented this year.**

The April 28th **Extension Program** will be held here at the Agricultural Center at 6:00 PM. This will be a **Herd Health Seminar** put on by the Livestock Allied Industries. Pharmaceutical products will be demonstrated on live animals.

A meal will be provided by the Allied Industry Reps. To insure that a correct number of meals will be provided, please call Travis Seawright (941) 722-4524 for your reservations. Come and learn the latest methods and management practices to be used in the health management of cattle.

The May 11, 12, & 13 **Extension Program** will be held in Wauchula. The South Florida Beef-Forage Agents will be presenting a three day school on **Palpation and Pregnancy Testing**. This is a three day intense course that can be used for college credit. Over 25 Manatee cattlemen have gone through this course during the past sixteen years. There is a registration form that must be submitted prior to school and a \$200.00 fee to take the course. Call Travis Seawright for the registration forms and further information.

There will be a nine day **Forage School** presented by the **Extension Program**. It will consist of three days in June, three days in July and three days in August. A registration fee of \$175.00 will be charged for the full nine days, or each session will be \$65.00 each. This is an opportunity to learn the in-and-outs of Forage Management Practices that pay. See Travis or call for the registration forms.

For further information, contact Travis Seawright at 941/722-4524 ext. 236, or your local Farm Service Agency.
